

PARAMYXO VIRUS

16/11/2011

Dear Members,

As discussed at the VHA meeting Monday (14/11), Dr. Walker had a meeting with Pfizer on Tuesday (15/11) and they indicated that they will submit registration of the vaccine shortly.

They expressed some concern about the time it will take to get the registration processed by the Government Departments however we will address this with the relevant authorities.

This is the beginning of the process to obtaining access to the vaccine early next year and hopefully being able to recommence racing towards the middle of 2012.

Stephen Kearsey
